About the Leadership Development Institute: Michigan Community Action created the Leadership Development Institute (LDI) in consultation with Rebecca Kraus, of Rebecca Kraus & Associates LLC to support the professional development of emerging leaders in the network. This comprehensive training prepares managers and key CAA staff to expand their skills in management, communications, human resources, strategic planning, advocacy and leadership. Since 2016, the cohort has included Results Oriented Management and Accountability (ROMA) and history of Community Action. Michigan Community Action will begin enrolling new cohort members for 2021-2022 this summer.
